1.0 Configuration

Once you have copied the files into your MediaPortal folder, go to the MediaPortal Configuration Plugins page...

Right click on the My NetFlix plugin and Enable.

Right click on the My NetFlix plugin and Configure (See Figure 1.)

- 1.0 Click the Authorize button. (This will open an internet explorer window and take you to Netflix site to authorize your account for use with this plugin. Once you enter your credentials, return to the My NetFlix configuration screen and click 'Yes' to the "Did you enter your credentials.")
- 2.0 Click the Browse button to enter the file location of your IE browser.
- 3.0 Enter the number of results/images you would like to see on the screens. Be careful not to enter a number above 50 here.
- 4.0 Click the Save button to save your changes. **Note: BE SURE TO CLICK THE SAVE BUTTON EVEN IF YOU DO NOT CHANGE THE DEFAULTS.**

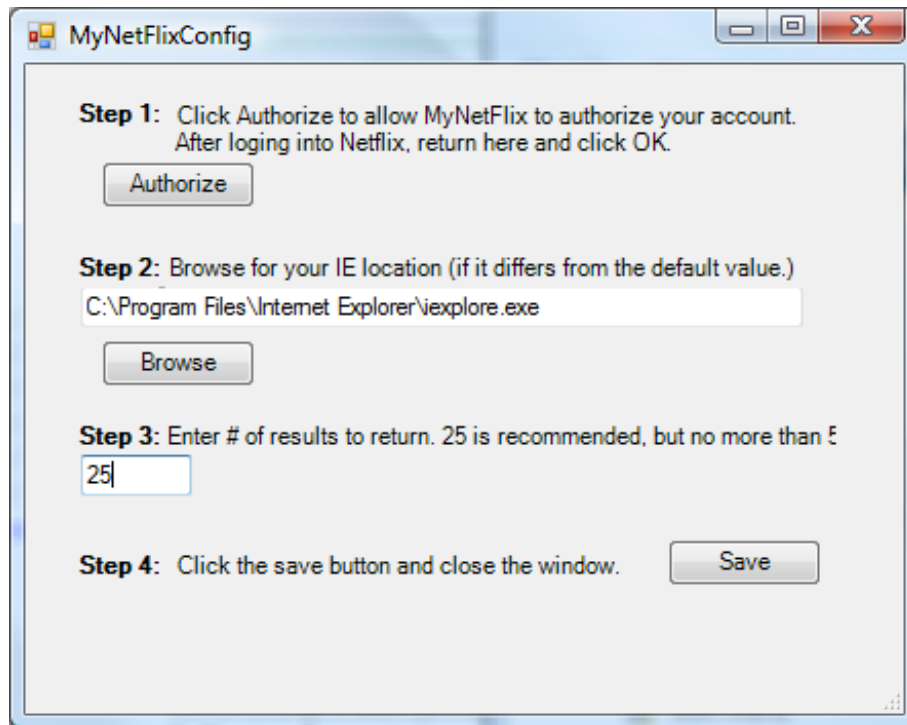

Figure 1

2.0 DVD Queue

The DVD Queue will show the NetFlix queue up to 14 movies (Figure 2.) This page shows you images of the movies as well as basic information about the movie.

Figure 2

If you hit Select while on a movie it will take you to the Details page (Figure 3.) The details page shows much more information about the movie as well as the formats it supports (Right hand side.)
